

The UC-321 brings a new era in personal scales. This scale packs a 50g resolution in a stylish body.

### HIGHLIGHTS

■ **50g Resolution**

The 50g resolution provides ultra precise weight results in your home. Even the slightest increase or decrease in weight (such as a cup of coffee or a glass of water) registers on this scale, unlike conventional home scales which are not as sensitive. This benefits more than just people dieting. It is extremely useful for diabetics who need to closely monitor and control their body weight within a certain range. Thanks to a new technology, we have been able to increase the maximum capacity to 150kg!

■ **Target Weight Setting**

This new scale is not just more precise, it is also more functional than conventional scales. With this scale you can set a target weight and it will tell you the difference between your actual and target weights.

■ **31 Built-in Memory Function**

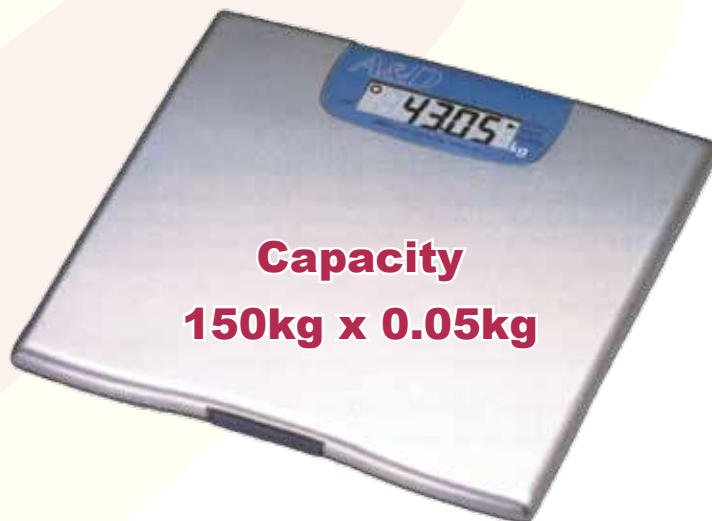

You can store up to 31 readings in memory and recall the stored values by pressing a button to review your weight history.

■ **Very Low Profile**

The UC-321 contains our latest technology in a stylish and low profile body. Because it has such a low profile, it is easy to step on the scale. No stumbling!

■ **BMI Value Calculation**

BMI (Body Mass Index) value is a clinically proven index for obesity. Your BMI value will be calculated automatically and shown on the display. Just step on the scale to measure your weight. The UC-321 does the rest!

**Capacity**  
**150kg x 0.05kg**

Note: BMI can be calculated using the following formula and the value is classified into 4 categories.

$$\text{BMI} = \frac{\text{Weight (kg)}}{\text{Height (m)} \times \text{Height (m)}}$$

### BMI CLASSIFICATIONS FOR ADULTS

BMI	
Under 19.8	Slim
19.8 to 24.2	Normal
24.2 to 26.4	Overweight
Over 24.6	Obese

### SPECIFICATIONS

Sensor	Loadcell
Display	LCD, Character Height: 25mm
Power	4 x AA Batteries
Battery Life	Approximately 2,000 Measurements
Weight	Approximately 2.7kg
Dimensions	320mmW x 314mmD x 35mmH
Auto Power Off	5 Seconds
Operating Temperature	10-35°
